

NOTE TO PROJECT PROPOSAL DEVELOPMENT

Project title	Integrated land development (ILD) program to improve land use and water management efficiency
Name of applicant	Szövetség az Élő Tiszaért (Alliance for the Living Tisza – ALT)
Contact person Name: Address: Phone: Fax: e-mail: web-site:	Kajner, Péter H-5065 Nagykörű, Május 1. u.1 36-30-5979-119 kajnerp@elotisza.hu www.elotisza.hu

The idea of developing capacities of local actors and pilot adaptation of ILD tools is strongly supported. However, the extent of implementation of pilot program is not clear. The project proposal shall clearly include in-site implementation and identify the demonstration sites. It is recommended to strengthen the involvement of communities in Romania and Serbia.

The idea of developing maps of vulnerable ecosystems shall be reviewed to avoid duplication of work already done, as well as to support the practical utilization of this output.

During proposal development more balanced partnership with national institutions and administration shall be established, to increase the political and institutional acceptance of ILD.

The involvement of the International Consultant will include home-based advice and review of partial documents/chapters of the proposal and the draft project proposal. His/Her involvement will also include a 5-days mission to project site and meetings with stakeholders. The applicant is requested to support the organization of the mission, to make arrangements for meetings with partners and stakeholders, as well as for local travel (to be covered from UNDP support budget).
